

Did you know that Huerfano County

Has Hundreds of Historical Sites?

The Huerfano County Historical Society is a long-standing and diverse group of dedicated volunteers committed to preserving and communicating our County's History.

The Society has worked since 1959 to preserve and identify historically and locally important items - evidenced by the extensive collections at La Veta's Francisco Fort Museum and the Walsenburg Mining Museum and the expanding collection of historical documents and photographs at the Tiry Local History Center.

We are asking for your financial support and also your physical support. We need volunteers for the events we are planning and also for the operation of the museums and work on the collections.

Member benefits: 10% giftshops discount, free museum passes, quarterly newsletter, tour/event discounts, and the priceless satisfaction of helping preserve our unique history!
